

Short Term Internship

If you are an undergraduate student in a technical or administrative field, and you're looking to spend a few months training on-the-job, imagine doing your internship at CERN!

Take part!

One of CERN's key missions is education. Our experts enjoy sharing their knowledge with committed and passionate students.

Join us in a place that can be hotter than the centre of the sun, and colder than the vacuum of space, at the very same time.

This is the smartest way to learn more than you can imagine and see your work travel at the speed of light. Almost. This is your chance!

WHAT WE OFFER:

- The duration of the internship is minimum 1 month and maximum 6 months.
- Your Educational Establishment / University must ensure you have full insurance cover valid in the Geneva area (France and Switzerland) for medical expenses, work and private accidents as well as any disability arising from professional and non-professional illness and accidents.
- You will receive a monthly allowance of 1,577 Swiss Francs.

ELIGIBILITY CONDITIONS:

- You are a full-time student (Technical/Administrative diploma, Bachelor or Master degree).
 - Please note that candidates studying for a PhD are not eligible for this programme.
 - You are at least 18 years of age.
 - Your main field of study is in one of the following areas: applied physics, computing, mathematics, electricity, electronics, mechanical or civil engineering, instrumentation, materials science, radiation protection, safety and environmental protection, surveying, ultra-high vacuum, scientific communication. Or in administrative fields such as: translation, advanced secretarial work, accounting, legal services, human resources, librarianship, logistics.
 - You will remain a full-time registered student throughout the internship at CERN.
 - You have good working proficiency in English and/ or French.
-
