

Building Resilience and Networks for the Digital Future

Kauno kolegija, Lithuania

2025 | 7-11
April

REGISTRATION
IS OPEN!

Dear Colleague,

We are thrilled to announce the upcoming International Week “*Building Resilience and Networks for the Digital Future*“, hosted by Kauno kolegija on 7-11 April, 2025.

The International Week, focused on current global challenges and highlighting the importance of global cooperation, will cover aspects of resilience, digital transformation and networking.

We are planning a dynamic schedule involving a diverse group of participants: students, academic and administrative staff, international guests and our social partners. Activities will include creative workshops, lectures, the forum and more.

The week begins at our Alytus Campus on Monday afternoon, followed by a formal forum “The Role of European University Alliances in Shaping the Future of Education and Research” and Networking Fair in Kaunas on Tuesday, with further activities tailored to your chosen location. We suggest planning your arrival on Monday morning or the day before if necessary.

You will have a possibility to learn more about Kauno kolegija and its latest developments:

- › our participation in the European University Alliance **UNINOVIS** – Data for L.I.F.E.;
- › advancements in RDI and projects as well as other exciting initiatives;
- › the Alytus Faculty, which became an integral part of Kauno kolegija as of July 1, 2024, is now the only higher education institution in **Alytus** city, with a strong focus on regional development.

Additionally, Kauno kolegija will host the *International Scientific Business and Technology Conference 2025* during the same week, providing you with the opportunity to attend both events. **Registration** for this conference is now open.

There will be opportunities to teach in various fields, but we encourage aligning your contributions with the event’s main topic areas: resilience, digitalization, networking. Further details of the International Week will follow.

We kindly ask that you fill out the **registration form** by 1 February, 2025 to secure your spot.

We look forward to seeing you in Kaunas.
