

## **U!REKA Research Days 2025 - Save the date!**

**November 4-6, 2025. Tuesday - Thursday**

**Hosted by Amsterdam University of Applied Sciences**

This event will bring together 100+ researchers from the 11 partners in the U!REKA European University Alliance, representing a wide range of research domains and disciplines, and across U!REKA's three Centres of Expertise: Climate Neutral and Resilient Cities, Transition to Circular Society, and Innovative Governance and Citizen Engagement.

Why join?

- **Networking:** For those researchers new to U!REKA, this is an opportunity to meet your colleagues and identify opportunities for cooperation in research.
- **Scientific exchange:** For those researchers already active in U!REKA, an opportunity for exchange on ongoing and possible new research projects.

The programme includes networking, workshops, and seminars on research topics linked to our Centres of Expertise. Also, we will organise trainings on research methods and tools, and host several social activities to get to know your fellow researchers in person as well. Details and registration will follow in May 2025.

Questions to Mark van Wees [m.t.van.wees@hva.nl](mailto:m.t.van.wees@hva.nl) or to the U!REKA research coordinator at your own institute.
