

# Study programme Civil Engineering

Generated: 10. 4. 2024

<b>Faculty</b>	Faculty of Civil Engineering
<b>Type of study</b>	Doctoral
<b>Language of instruction</b>	English
<b>Code of the programme</b>	P0732D260005
<b>Title of the programme</b>	Civil Engineering
<b>Regular period of the study</b>	4 years
<b>Cost</b>	500 CZK per semester
<b>Coordinating department</b>	Department of Structures
<b>Coordinator</b>	prof. Ing. Radim Čajka, CSc.
<b>Key words</b>	building materials, municipal engineering, building environment, civil engineering, engineering constructions

## About study programme

Doctoral study is based on research in civil engineering. Students are working in one of areas: concrete and concrete structures, steel structures, reliability and durability of structures, transport structures building environment, urban planning.

## Graduate's employment

Researcher, expert designer.

## Study aims

Obtaining ability and knowledge to work as a researchers in civil engineering.

## Graduate's knowledge

Ability to independently solve research tasks.

## Graduate's skills

Ability to lead small teams, top present results of research.

## Graduate's general competence

Tvoření úsudku, Schopnost dalšího vzdělávání

## Study curriculum

- form Full-time (en)
- form Part-time (en)
